Ongoing Suitability

The firm's services do not include ongoing suitability assessments.

Firm considering Sustainability factors.

Sustainability Factors - Investment/Pension Advice

In accordance with the Sustainable Finance Disclosure Regulation ('SFDR'), we inform you that when providing advice on insurance-based investment products/Investments, we assess, in addition to relevant financial risks, relevant sustainability risks as far as this information is available in relation to the products proposed/advised on. This means that we assess environmental, social or governance events/conditions that, if they occur, could have a material negative impact on the value of the investment.

We integrate these risks in our advice in the following way: We review product provider literature in relation to sustainability risks, we liaise with the providers in relation to any queries in relation to the funds. This information is reviewed by the firm on an ongoing basis.

Considering Principal Adverse Impacts on sustainability factors in the advice:

When providing advice on insurance-based investment products ('IBIPs') or investment advice we assess the PAI information published by product manufacturers as follows: [To be completed by the individual Broker] E.g., the firm will examine the Product Providers literature to establish the Principal Adverse Impacts for the relevant products. The firm will then compare financial products across available providers to make informed investment decisions about the suitability of ESG products for individual clients.

Impact on Return If sustainability risks -are deemed relevant:

We also assess the likely impacts of sustainability risks on the returns of the IBIPs on which we advise.

Remuneration policy

We are remunerated by commission and other payments from product producers. When assessing products, we will consider the different approach taken by product providers in terms of them integrating sustainability risks into their product offering. This will form part of our analysis for choosing a product provider.

We take due care so that our internal remuneration policy with respect to investment or insurance advice on insurance-based investment products ('IBIPs') promotes sound and effective risk management in relation to sustainability risks and does not encourage excessive risk-taking with respect to sustainability risks.

Regular Reviews

It is in your best interests that you review, on a regular basis, the products which we have arranged for you. As your circumstances change, your needs will change. You must advise us of those changes and request a review of the relevant policy so that we can ensure that you are provided with up to date advice and products best suited to your needs. Failure to contact us in relation to changes in your circumstances, may result in you having insufficient insurance cover and/or inappropriate investments.

A right to compensation will arise only:

- If the client is an eligible investor as defined in the Act; and
- If it transpires that the firm is not able to return client money or investment instruments owned or belonging to the clients of the firm; and
- To the extent that the client's loss is recognised for the purposes of the Act.

Where an entitlement to compensation is established, the compensation payable will be the lesser of:
